

Dr. Aditi Haldar

Dr. Aditi Haldar holds a Ph.D in Environmental Sciences. Her main areas of interest are environment management systems, environmental and social performance benchmarking, environmental assessment, awareness, action and reporting with key stakeholders from community, industry, civil society and government sectors. She has an experience of more than 14 years in the trans-disciplinary area of Environmental Sciences and Sustainable Development.

Summary of presentation

She began by putting forward the internationally accepted definition of sustainable development before the audience and apprised them of the evolution of the concept of corporate sustainability and how it has matured over the years. She also emphasized on the importance of sustainability reporting as a key aspect of corporate sustainability and promoted the idea of GRI's G3 guidelines as the basic framework to produce such reporting. She then briefly explained the CII-CSMS initiative, its achievements and concluded by highlighting the benefits of this initiative at the local and global level.
